TAKEUCHITM
From World First to World Leader

TB335R

Operating Weight: 3,760 kg

TOUGH, POWERFUL, RELIABLE

7" Touch Screen Display (CAB)

Intuitive Operation

Hydraulic Joystick Controls

Large Floor with Foot Rest

The latest 300 series excavator, the TB335R features a minimal tail swing design that allows you to focus more on the work you are performing and worry less about rear swing impacts. Operators will find that the compact radius of the TB335R will provide excellent maneuverability and accessibility to confined worksites without sacrificing stability. While powerful bucket and arm crowd forces and a wide working range will deliver unmatched performance.

A comfortable operator is a productive operator and the TB335R features a wide range of improvements that will enhance the operator's experience. Features include a fully redesigned interior that includes one touch controls, jog dial, high-definition color

monitor, and a deluxe high back suspension seat that has fore/aft/tilt and multiple height adjustments. Low effort hydraulic pilot controls serve as an extension of the operator delivering precise operation while minimizing fatigue. The cabin interior is inviting and spacious allowing the operator to remain comfortable and productive throughout the day.

Daily inspections and maintenance are easy to carry out thanks in part to a swing out engine hood and overhead opening right side cover. With the hoods open, the operator can quickly inspect the water separator, radiator and oil cooler, hydraulic oil level sight gauge, fuel level, dual element air cleaners, coolant level, engine oil dipstick, and battery.

Completely Redesigned Automotive Styled Interior with Intuitive User's Operation
